Admiral Dewey's name may as well be pronounced right, since he is the hero of the hour. Call it Du-je.

Now that Admiral Dewey has finished the war on the Asiatic side, we ought to make short work of them around Cuba.

Gov. Taylor and Gen. Sam Carnes, of Memphis, are having a red hot race for the Presidential appointment as Brigadier General of the Tennessee State troops.

Mrs. W. C. Whitney, of New York, formerly Mrs. Belmont, has been dangerously ill for a week. The flowers sent by her friends last week to cheer her sick room aggregated in value \$25,000.

Gen. Emilio Nunez, the noted Cuban leader, is at Key West conferring with Admiral Sampson. The invasion of Cuba will take place this week.

The battleship Oregon and the gunboat Marietta, now at Rio Janeiro, have been ordered to sail and will reach Cuba just about the right time to make themselves useful.

The public no longer "jes laffs" at the claim that THE KENTUCKIAN intends to give the news ahead of the big dailies. It has already shown that the thing can be done by actually doing it.

Manila, the capital of the Philippine Islands, is a progressive city of 160,000 people and its harbor is one of the best in the world. The city is situated on the western side of the island of Luzon.

THE KENTUCKIAN of Sunday scooped all other papers on the safe arrival of the Oregon at Rio Janeiro. It was delivered all over the city by 6 a. m. and was four hours ahead of any other daily containing the news.

The Spanish steamer Panama, captured by the little Mangrove, is worth \$700,000, one half of which will be given the Mangrove's officers and crew. As there are but few of them, the fortunate ones will make a ten strike.

The British Consul at Cienfuegos wired the American Consul at Kingston, Jamaica, to send a warship there to rescue American citizens, whose lives are in danger. A ship at once gave the town a shelling, but it is not said whether the Americans were rescued or not. The war was postponed a week to let them get out of Cuba and they ought to have done so last month.

The first issue of THE DAILY KENTUCKIAN, of Hopkinsville, has reached our exchange table and it is a most creditable sheet in make-up and matter. It is an offshoot of the semi-weekly of that name, edited and published by Chas. M. Meacham, one of the best known and most popular newspaper men in the state. We wish the new paper unlimited success.—Bowling Green Times.

It may be all right according to the rules of war, but turning the United States into an organization of freebooters, to capture and confiscate the private merchant vessels of Spanish citizens, is not exactly what the people prefer to have done. What we want our Navy to do is to make warfare on combatants and capture the armored ships of the Spanish navy, and keep them from doing damage to American property.

All day long yesterday a crowd surged about the bulletin boards of THE KENTUCKIAN and eagerly read the news from Admiral Dewey's splendid victory. As the news grew better and better, the enthusiasm increased and many words of praise were heard about the gallant Vermonter, who gave the Dons a severe drubbing, and captured the Philippine Islands. With its characteristic enterprise, THE KENTUCKIAN to-day presents its readers with a portrait and sketch of the victorious Admiral.

A book of instructions accompanies every machine.

SPECIFICATIONS.

The Head—Is five and one-half inches high and eight and one-half inches long, inside measurement. This is as high as any family machine made, and must not be confounded with the medium or so-called high-arm machines. The head plate sets into or level with the table.

The Needle—Is straight, self-acting, flat on one side and cannot be set wrong. The Shuttle—Is open on the end, cylindrical shape and absolutely self-threading.

The Bearings—Are all steel, well fitted and adjustable.

Self-threading—The machine is self-threading, and no hole to put the thread through, except the eye of the needle.

The Feed—Is positive in action, and has no springs to get out of order.

Automatic Bobbin Winder—Will wind the bobbin as smooth as on a spool of thread.

The Stitch—Is double lock stitch. The same on both sides and will not unravel. Can be lengthened or shortened from eight to thirty stitches to the inch.

The Tension—Is a flat-spring tension and adjustable to all sizes of thread.

Hand-Wheel—Is nickel plated and has a loose wheel attached to operate bobbin-winder without running machine.

The Movement—Is the celebrated eccentric movements, positive in action and fewer working parts than any machine on the market.

The Stand—Is large, heavy, the treadle is large and hangs in cone centers and all lost motion can be taken up, asters under each end, and can be easily moved. A nice dress guard over wheel to keep dress from getting on wheel.

Attachments—Are the famous Johnson's set in a tin box, and consists of tucker, ruffler, four hemmers, binder, quilter, foot beamer and feller, under braider and sheerer, oil can and oil, two screw drivers, six bobbins, paper of needles, thumb screw, gauge, and book of directions.

The Furniture—Is well made, highly polished and elegant in appearance. All these machines will be sent out with oak furniture unless walnut is specified. Each machine has a lock to the drawers and cover, nice nickel plate drop rings to all drawers. All machines are well packed and crated.
